The Standard for Quality and  
Performance in Aerospace

**Products and Services**

- Full Line of Aerospace Materials  
Aluminum,  
Stainless Alloys,  
Titanium
- Plate, Sheet, Tube, Bar, Forging
- Shearing
- Saw Cutting
- Bar Cutting
- PVC Masking
- Chemical Milling
- Trepanning
- Heat Treating

Over 100 years of experience in serving  
the aerospace industry.

## Sigma Aerospace Metals: Quick Facts

Sigma Aerospace Metals has long been a supplier of aircraft quality metals to the aerospace industry.

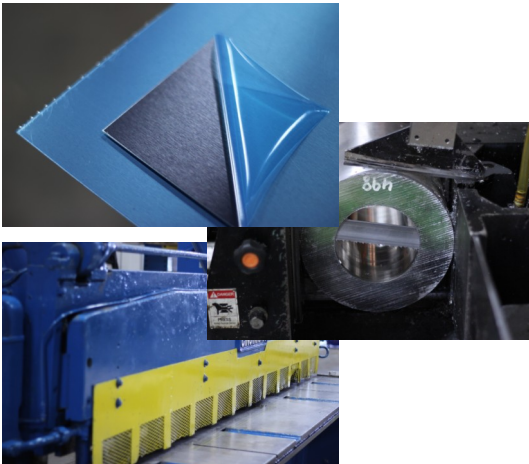

Our sales force has over 100 years of combined experience in the industry and with that knowledge we are capable of locating the “hard to find items” as well as stocking a full range of aluminum, stainless, and hi-temp alloys.

Sigma Aerospace Metals has a large warehouse with multiple machines for all of your metal needs. We have the capability to:

- Shear or Laser Cut Sheet to Any Dimension
- Cut Plate up to 6” thick
- Cut Bar up to 14” diameter
- Cut circles up to 96” diameter
- Cut various shapes of any size

Our quality and service makes us one of the leaders in the marketplace.

The company’s dedication to excellence and technical sophistication remains unchanged. Our philosophy of long-term partnerships continues to bring value to the customer and stability to the company.

### Third Party Accreditation

AS 9120 Rev. A  
ISO 9001: 2008

### Major Customers Include

Agusta Westland  
Bell Helicopter  
Boeing  
Cessna  
ITT/Exelis  
L-3 Communications  
Lockheed Martin  
Northrop Grumman Corporation  
Spirit Aerosystems  
Triumph Group  
US Government  
DSCC; Columbus, OH DSCP; Philadelphia, PA  
DSCR; Richmond, VA

### Global Presence

Sigma Aerospace Metals supplies material to customers around the world. We are very familiar with worldwide shipping procedures and export regulations.

All of our shipping crates comply with the International Standards for Phytosanitary Measures of Guidelines for Regulating Wood Packaging Material in International Trade (ISPM#15).

### Materials

Sigma Aerospace Metals stocks all major aerospace materials, including:

*Aluminum:* 2000, 5000, 6000, 7000 series  
*Stainless Steel:* 13-8, 15-5PH, 17-4PH, 301, 302, 321, 347  
*Titanium:* 6AL-4V, 8-1-1, 6-2-4-2, 3AL-2.5V, 5AL-2.5SN, Commercially Pure  
*Nickel-based alloys:* Inconel 625, 718, X750, etc.  
*Alloy Steel:* 4130, 4340, 4340  
*Forgings:* Aluminum, Titanium, Steel  
*Others:* Cast iron, Copper, Phenolic

### Summary

Sigma Aerospace Metals stocks all major aerospace materials in our 30,000 sq./ft. warehouse. We have the capability to cut 6” plate and 14” diameter bar, as well as circle cutting.

Also, our company is well-positioned for the future and is fortified for growth.
